## THOSE WHO GOVERN.

Within the last few months there has been some expression about the governing race and its mission on the earth. There is no question about the mission of the bearded race respecting the final destiny of man. Nature confirms his superior power and decrees the race dominion through the survival of the fittest. The operation of the law that decrees a survival of the fittest in nature is universal in its operation, and because of this law there is a contest for dominion within the race, and for the first time in the history of man it is outlined by the action of the United States and England, wherein there is uncovered the intention of the money power of both nations to sustain each other in the contest for dominion.

But before the contest for dominion within the race is settled, unless some intervening power controls, killing men will become a business such as it never has been in the history of man. Within the race there is a continued contest going on for dominion. These contests as a rule are friendly and commendable and are conclusive of the universal law operation of a survival of the fittest.

The principle applies to all nature and to all things in nature. It applies to political parties and to government by political parties, and when application of the principle is made to the latter the power that puts the principle in motion is slight when compared with the power of the body moved.

The power that moves and changes the policy of government in a free country may aptly be compared to a ship's helm. The superior governing and directing power in a free government is in the highly patriotic few who keep country always above party. These men are the few who change the policy of government and who are in fact the governing power in free government. These governing few are not foolish in any sense, as they are the thinking, deliberating and cool acting men of the country, who have no party when the welfare of their country is in a balance. Party names and party ties have no terrors to the patriotic and intelligent man, as he is ever seeking that which he believes to be right and that which he believes to be for the best interests of the people and his country.

The mere partisan never rises to the level of a governor of his country, as his real, if not natural, position is to make up the mass of political inertia that is directed in its course by the helm, composed of the patriotic and intelligent few. When we say that the intelligent few govern, it is not said to apply in a general sense, as all have the right to express themselves through the ballot. The sense intended is abstract, as the patriotic few turn the scale with their ballots, and these are ballots that shape the future government of the country. In these times the government of the country is not the only question involved in the ballot, as its destiny is included more largely than at any time in its history since the revolution.

The question above all others before the people is the question of the country's future. In the country's future is included the future of each man, woman and child living and to live and the country's future, as at present presented by the money power, is expressed in the language of Patrick Henry "Give me liberty or give me death" which is the form now before the Boers in a war sense.

While it is presented to the American people in a civil sense as it exists at present and it will continue to be so presented, providing the people are willing in the future to submit to the slavery that will be imposed by the money power, but should it become necessary to maintain the authority of the money power it will be presented to the American people as it is now presented to the Boers and when it has been presented to our people in the form presented to the Boers and the money power is successful Americans will thereafter be seen approaching the throne of royalty on bended knee, but in hand.

It may be concluded by some people that the picture is overdrawn. It is to be hoped for the future good of the people that it is over colored, but the outlines are true and the truth of the outlines is established by the fact that we are more than half way on our journey to the royal conclusion at this writing.

Americans are receiving education in the way intended by the money power, and we are sorry to say, that too many of them appear to be apt scholars. The

change will not be to-morrow, the money power is cunning and it feels its way in an insidious manner against a foe it fears.

Take for an example the demonetization of silver. The work was done by fraud and fraud has marked its course from the time it demonetized silver, as we intend to present in the future. There is not anything frank or honest in the money power. It is a villain in all of its work and it has required twenty-five years to prepare the Republican party to declare for a gold standard, which it will do in national convention next year.

## SANTA CLARA SLUGGERS.

The author of a certain article in the San Jose Mercury, vilifying the University of Nevada, was either the recipient of false information or he is a direct descendant of Annanias and Sapphira, an offspring of Baron Munchausen and an exponent of the law of heredity.

To attempt to refute the lies in the article would be an idle task. The Santa Clara College is disgraced by the mob of tricksters and foulies it is pleased to call its "football team."

The priest who officiates as president of the team is evidently a man of truth, for he declined to certify that Coward and Sheely are students of the college. Without these two sluggers the team could not win against an ordinary high school eleven. Without "the doctor," who nominally referees in an impartial manner, and in reality coaches, tackles and renders rotten decisions, the Santa Clara boys could not score against a kindergarten team.

This measly outfit should be barred from the athletic field.

Last year our boys went below and played them on their own campus, and were cheated of victory by underbanded work that would have disgraced a mob of convicts.

But the Nevada players were not revengeful. They received them this year with greater honors than were ever given other teams that played here. A brass band, the whole University and half the town welcomed them at the station. Their treatment was in every way courteous, and the local referee is being censured for giving the visitors so much the better of the decisions.

The University of the Pacific team will bear evidence for us in California that gentlemen who visit us are treated as gentlemen, and this creature Gerlach will make a good witness to the effect that we can pick a sneak every time, even if he does wear store clothes.

## Late News from Ladysmith.

The situation at Ladysmith is not so bad as late dispatches indicated. The British made a loss of from 1,500 to 2,000 men, taken prisoners, including a number of pieces of artillery. General White takes the responsibility of the loss upon himself in a very straightforward way.

A battle was forced by the British on the 30th, in which the Boer artillery guns were silenced. Some severe fighting was done, when the British, being hard pressed, retired, with a loss of one hundred in killed and wounded. The engagement lasted several hours.

The official accounts of the late operations of the British at Ladysmith are disquieting at the London office. The superior number of the Boers, with their known fighting qualities, is not assuring, and the Boers may yet make good their threat to drive the English into the sea.

## A Life and Death Fight.

Mr. W. B. Hines of Manchester, Ia., writing of his almost miraculous escape from death, says: "Exposure after measles induced serious lung trouble, which ended in consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it, even if it cost \$5.00 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure throat, chest and lung troubles." Regular size 50c and \$1.00. Trial bottles free at S. J. Hodgkinson's drug store.

## LOCAL SHORTSTOPS.

Several shots were fired last night, some to scare off small boys who were playing hallow'e'en pranks, and one or two shots simply to celebrate the occasion.

The new school building at Wadsworth is completed. It is a magnificent structure.

A beer sign ornaments the front of the Episcopal church this morning.

## Germany Will be Neutral.

Germany will not in any way interfere in the British-Boer war. Emperor William's farewell note to the British regiment of which he is honorary colonel has silenced all talk and conjecture regarding German attitude to England. It appears at present that the only thing there is to trouble England is the Boers, who seem to be a thorn in British flesh.

## French Tansy Wafers.

The world's famous remedy for painful period and irregularities, regardless of cause, are never failing and safe. The wafers are the married woman's best friend. The only reliable female regulator; imported Paris. Take nothing else but insist on the genuine, red rappers, with our trade mark. Le France Drug Co, importers, 306 Turk street, San Francisco.

## NEVADA IS THE BANNER STATE

For Sugar Beet Culture — Highest Percentage in Sucrose.

This is the eighth year of sugar beet culture in Nevada and the industry is still upon an experimental scale, notwithstanding that results have been obtained which justify planting thousands of acres of beets and erecting factories for the production of sugar.

At present beets are being grown at the experiment grounds and H. B. Maxson's ranch near this city. A small acreage is devoted to these roots in Smith and Mason valleys. Fred Dangberg is raising twenty acres near Gardnerville. A field of beets is being cultivated on the Sam Bachman ranch in Roby valley, while the following Lovelock valley ranchers are cultivating beets to greater or less extent: John Harrison, H. O. Marker, Joseph Hills and Wm. Looz.

Government returns for last year show Nevada's beets to have been at the head of the column with 21.2 per cent in sucrose, for the best, while their average was 18.5 per cent. The previous year Nevada also headed the list and it is a foregone conclusion that the good story will be retold for 1899.

There arrived at the experiment station Monday a number of beets from the Harrison ranch. They were monsters. The largest stood 39 inches high. Prof. N. E. Wilson is now engaged analyzing them.

## Will Repeat It.

Last fall I strained my left hip while handling some heavy boxes. The doctor I called on said at first it was a slight strain and would soon be well, but it grew worse and the doctor then said I had rheumatism. It continued to grow worse and I could hardly get aound to work. I went to a drug store and the druggist recommended me to try Chamberlain's Pain Balm. I tried it and one-half of a 50-cent bottle cured me entirely. I now r commend it to all my friends.—F. A. BABCOCK, Erie, Pa. It is for sale by W. Pinniger.

## MINERS' ASSOCIATION CONVENTION

### A Delegate From Nevada Interviewed—Need of a Similar Organization Here.

Captain Griffin returned yesterday from the annual convention of the California Miners' Association, much pleased with what he heard and saw there.

A number of delegates were appointed from this State to attend as guests of the association. Col. Boyle of Virginia, N. J. Blossom of Humboldt and Judge Bonfield were among those present from Nevada. The sagebrush delegates were hospitably treated, their California brethren having been their hosts at a banquet at the Palace Hotel.

Captain Griffin was greatly impressed by the work of this body. It maintains committees who work at Washington and Sacramento in the interests of laws for the benefit not only of California miners but those of other States.

They secured the passage of the Cominetti law which permits of hydraulic mining under certain restrictions. They have accomplished much good in separation of mining from agricultural land within the railroad limits.

One of the most conspicuous features noticed at the convention was the affection displayed for "Uncle Jake" Neff, who has been president of the association ever since its organization eight years ago. His official duties prevented his accepting the presidency this year. Mr. Neff has labored for the better part of his lifetime to further the interests of mining and his labors are most heartily appreciated.

The association is now making an effort to secure a department of mining at Washington and a cabinet officer to represent this industry. It should be stated that all the work that has been performed by the committee of the association has been done without a cent of recompense.

Captain Griffin suggests, and the JOURNAL warmly seconds the motion, that a society or association similar and auxiliary to that in California be organized in this State. It would accomplish much to assist in the mining industry of Nevada securing needed legislation.

## FREE DELIVERY IS DELAYED

No News of Appointments has Been Received from Washington.

The free postal delivery will not begin today owing to a delay at Washington. No appointments of carriers have yet been made and Nasby says he will be darned if he will deliver the mail himself unless Uncle Sam raises his wages.

A telegram sent to headquarters by the Postmaster, inquiring as to whether appointments had yet been made, brought no response yesterday.

We have a mighty fine government but it lacks the quality of discrimination. It thinks its duty lies along the line of fighting battles and making laws, instead of looking after such matters of vital national importance as relieving the anxiety of half a dozen citizens who are looking for a civil service job.

The new furniture, consisting of two carrier's desks and a distributing table, were installed yesterday and one of the new letter boxes was put up at the corner of Peavine and Plaza streets, not as a receptacle for mail matter but simply to be gazed at by an admiring populace.

## Would Not Suffer so Again for Fifty Times Its Price.

I awoke last night with severe pains in my stomach. I never felt so badly in all my life. When I came down to work this morning I felt so weak I could hardly work. I went to Miller & McCurdy's drug store and they recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. It worked like magic and one dose fixed me all right. It certainly is the finest thing I ever used for stomach trouble. I shall not be without it in my home hereafter, for I should not care to endure the sufferings of last night again for fifty times its price.—G. H. Wilson, Liverman, Burgettstown, Washington Co., Pa. This remedy is for sale by W. Pinniger.

A BIG PRICE FOR A SMALL COW

John Sparks Outbids Eastern Millionaires and Secures a Prize.

In the Kansas City Star of October 25th two columns were devoted to the sale of the Armour Rose heifer, purchased by John Sparks of this city for the highest price ever paid for a Hereford miss.

The article has this to say of the new owner:

John Sparks, the purchaser of Armour Rose, is the ideal western ranchman. There is just a little gray in his hair, which has been raven black, and his manner is that of a modest man. One might meet him every day in the year and never hear from him that his range cattle come to Kansas City by the railroad, or that his Herefords have taken the best of the prizes in all the State fairs of the Pacific slope. He would not say either that Jack Hayes, his three-year-old that weighs 2,400 pounds, is the heaviest animal of its age at the show, unless he said it to prove that Herefords will grow in the mountainous country of the far west.

"I want to get the best cattle I can into our country," he said. "The Hereford is just suited to our climate and conditions out there, and we have had rather a hard time making headway, but the ranchmen like Herefords as they come to know them."

"I went into the cattle business in Nevada twenty-five years ago. At first I had only range cattle, but I mixed them with Herefords, and they did so well that I have been buying as good cattle as I can get."

## SOCIALS AND FROLICS OF HOLLOW E'EN

Gates and Other Moveables Hie Away—Several Enjoyable Parties Given.

Hallow E'en has come and gone and so have half a hundred garden gates. Of course the small boys are chiefly responsible for this latter condition of affairs, but some children of a larger growth and of both sexes assisted in this annual depredation.

Jacks-o'-lantern were also in evidence. Impromptu processions, headed by these weird looking pumpkin demons, marched up and down the streets.

A number of hallow e'en parties were given. Mrs. C. T. Bender entertained a number of University students and other young people at her home on Fourth and Halston. The games of the season, new and old, were played.

Mrs. Dr. W. A. Phillips gave a party to the Baptist Young People's Union and friends last evening. A hearty good time was enjoyed by all present.

Mr. and Mrs. J. E. Taylor gave a ghost party. Horrid apparitions and blood curdling supernatural narratives made the evening pass "pleasantly."

Miss Edna Thyes gave a hallow e'en social to a number of her school friends.

**Looking for a Mine.**

W. D. Pinkston, a mining engineer of Auburn, and Charles Loughbridge, one of the owners of the well known Campo Seco mine in Calaveras, which recently became a bullion producer, registered at the Riverside last evening. They are bound for Alpine county to look at some promising properties in the vicinity of Boulder Hill, with a view to purchasing them if they meet their expectations.

## STATE NEWS.

The assessed valuation of White Pine county shows an increase of \$31,586 over last year.

It is said that Paris B. Ellis will resume his position at the Mint as Assayer, William Cashman having resigned.

An index of the times is the fact that carpenters are in demand all over Nevada.

John Varney, a former Comstocker, and Barney Coyle of Gold Hill, died recently in San Francisco where they were undergoing treatment.

Eureka county's assessed valuation foots up \$1,501,916, a loss of \$40,921.50 as compared with 1898.

A head of cabbage weighing thirty pounds was raised at the Noce ranch, near Virginia.

**Story of a Slave.**

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, run down people. Every bottle guaranteed. Only 50c. Sold by S. J. Hodgkinson Drugist.
